Hakuto Singapore Establishes Local Subsidiary in India ,
Strengthening Total Wastewater Treatment Solutions for the Rapidly Expanding ZLD Market

Hakuto Co., Ltd. (Head office: Shinjuku-ku, Tokyo; Representative Director and President: Miyashita Tamaki; Stock code: 7433; hereinafter referred to as "the Company") has established a local subsidiary in Gurgaon, India, through its group company, and has begun full-scale operations of its sales structure for industrial wastewater treatment systems for the Indian domestic market.

Currently, with the economic growth in India, the number of
In response to the current situation, ZLD (Zero Liquid Discharge: reducing wastewater discharged from factories to zero) regulations are becoming even stricter. There is also an urgent need to address water shortages and water pollution issues caused by industrial wastewater, and the need for these solutions is increasing year by year. In addition, western Indian regions such as Gujarat and southern Indian regions such as Bangalore and Chennai will also be required to comply with future regulations. Against this backdrop, there is an urgent need to establish a system to provide solutions across a wide area. In September

2024, our group company, Hakuto (Thailand) Ltd., signed an exclusive agency agreement with ROCK ENGINEERING for wastewater treatment equipment in India, and will distribute our flagship product, distillation equipment, to them. With the establishment of this local subsidiary in India, we have established a system that allows us to propose ROCK ENGINEERING equipment and our original wastewater treatment chemicals and equipment as a whole. By providing consistent support to customers throughout India, from regulatory compliance to supplying equipment and chemicals, we will provide solutions to comply with ZLD regulations.
